

# Designer Door Panels

Designer Door Panels

Personalise your home

# Personalise your home

**Designer Door Panels** add value and personal style to your home, with a range of appealing colours and designs. "Colonial" or "Federation" design can transform your home to an era of style and elegance; or maybe "Sentry" with its guard like presence can give a strong impression. "Harmony" design suggests peace and tranquillity while "Mediterranean" compliments any home facade.

## Colour Selection

**Note:** Colours are a print reproduction and should be considered as a guide only.

## Lasting Quality

**Designer Door Panels** are die cast using 100% aluminium and powder coated to produce a long lasting, durable surface that will look great for years. Washing your doors regularly (more often in coastal or harsh environments) will further enhance the life and appearance of your Designer Door Panels. All panels are warranted against faulty workmanship and/or materials for two years.
